

Erasmus+

Project funded by the
EUROPEAN UNION

The ENTRE-YOU project is approaching its finish.

Our training program is complete; we tested it during this spring with more than 130 young people, receiving great feedback to continue.

Also, we have been training trainers who will implement our training program and help young people across Europe to increase their chances on the labor market.

The summer of 2017 will be focused on spreading the news about ENTRE-YOU. Each of the project partners will organize one or more events where they will present the ENTRE-YOU training program to the interested parties: schools, NGOs, Labor Market Agencies, etc. The events will take place at a different time in each project country, if you are interested in participating, please contact the ENTRE-YOU partner in your country. You can find a list of the contact persons here: <http://entreyou.eu/contact-us>.

You can find more information about our project on our website: www.entreyou.eu

Come and get to know ENTRE-YOU!
